INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and
Members of the City Council
Moab City
Moab City, Utah

Opinions

We have audited the accompanying financial statements of the governmental activities business-type activities, each major fund and the aggregate remaining fund information of Moab City as of and for the year ended June 30, 2025, and the related notes to the financial statements which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities business-type activities, each major fund and the aggregate remaining fund information of Moab City as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Moab City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Change in Accounting Principle

As discussed in note 10 to the financial statements, in fiscal year 2025 the City adopted new accounting guidance, GASB 101, *Compensated Absences*. Our opinions were not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Moab City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our objectives to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Moab City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Moab City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and budgetary comparison information, and Utah Retirement systems tables, on pages as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Moab City's basic financial statements. The accompanying combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated December 19, 2025 on our consideration of Moab City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Moab City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Moab City, we offer the readers of the financial statements this narrative overview and analysis of the financial activities of Moab City for the fiscal year ended June 30, 2025.

Financial Highlights

- In the Government Wide Statement of Net Position, the total net position of \$64,043,265 is made up of \$49,235,235 in net investment in capital assets, \$2,438,844 in restricted net position, and \$12,369,186 in unrestricted net position. Total net position increased by \$5,111,813 from the prior year.
- As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$9,004,887. Of this amount, \$1,953,970 must only be spent on projects for which the money is restricted. \$3,304,942 is assigned by the City for various projects. The remaining \$3,745,975 is unassigned in the general fund.
- As of the end of the current fiscal year, the City's enterprise (proprietary) funds reported combined ending net position balances of \$27,347,443. Of this amount, \$20,907,406 reflects the net investment in capital assets. \$484,874 is restricted and must only be spent on projects for which the money is restricted. The remaining \$5,955,163 is unrestricted.
- In the enterprise (proprietary) funds, operating revenues increased by \$640,705. Corresponding operating expenses increased by \$629,976.

Reporting the City as a Whole

This discussion and analysis is intended to serve as an introduction to Moab City's basic financial statements. Moab City's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also includes other supplementary information in addition to the basic financial statements.

The government-wide financial statements are designed to provide readers with a broad overview of Moab City's finances, in a manner similar to a private-sector business.

- The *statement of net position* presents information on all of Moab City's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Moab City is improving or deteriorating. However, you will also need to consider other non-financial factors.
- The *statement of activities* presents information showing how the City's net position changed during the fiscal year reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

Both of the government-wide financial statements distinguish functions of Moab City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

The government-wide financial statements can be found on pages 9 and 10 of this report.

Reporting the City's Most Significant Funds

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Moab City also uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

- Governmental funds – These funds are used to account for the same functions reported as governmental activities in the government-wide financial statements. These fund statements focus on how money flows into and out of these funds and on the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps users determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation included with the fund financial statements.

The governmental fund financial statements can be found on pages 11-14 this report.

The major governmental funds (as determined by generally accepted accounting principles) are the general fund and capital projects funds. The balance of the governmental funds are determined to be nonmajor and are included in the combined statements within this report.

- Proprietary funds – Moab City maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Moab City uses enterprise funds to account for its water utility, sewer utility, and storm drain.

The basic proprietary fund financial statements can be found on pages 15-17 of this report.

- Additionally, the City reports the following fund types:
The Internal Service Fund accounts for the health insurance services provided to other departments of the government on a cost reimbursement basis.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Moab City, assets and deferred outflows exceed liabilities and deferred inflows by \$64,043,265.

One of the largest portions of Moab City's net position (77%) reflects its investment in capital assets (e.g., land, buildings, infrastructure assets, and machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table summarizes the City's net position. Comparative figures for Fiscal Years 2025 and 2024 are shown below:

	Governmental Activities		Business-type Activities		Total	
	2025	2024	2025	2024	2025	2024
Current and other assets	\$ 15,970,759	\$ 22,061,969	\$ 13,650,800	\$ 16,062,157	\$ 29,621,559	\$ 38,124,126

Governmental Activities

Governmental activities increased the City's net position by \$3,880,386. The increase is due mainly to strong tourism growth, which helped fuel the increase in revenues related to sales taxes, and other taxes. Capital grants for projects within the City also increased the City's net position. Also contributing to the increase in net position is the City's commitment to conservative budgeting to keep expenditures as low as possible.

Business-type activities

Business-type activities increased the City's net position by \$1,231,427. As of the end of the current fiscal year, all the City's business-type funds reported positive net position.

Financial Analysis of the Government's Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements.

At the end of the current fiscal year, the City's governmental funds reported combined fund balances of \$9,004,887. Of this total amount, 78% constitute assigned and unassigned fund balances. \$3,304,942 is assigned by the administration of the City and will be used for the following: \$1,491,980 for recreation, \$1,226,586 for capital projects, \$583,049 for housing, and \$3,327 for youth council. \$3,745,975 is unassigned and is available for spending at the government's discretion.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the general fund was \$3,745,975, a decrease of \$756,770 from fiscal year 2024. The total fund balance is \$5,127,172, a decrease of \$1,913,417 from the prior year. A major reason was multiple transfers to other funds of \$7,185,848.

The City has one major Governmental Fund

1. General Capital Projects fund. The fund was created to account for financial resources to be used for the acquisition and construction of major capital facilities within the City. At the end of fiscal year 2025, the fund balance is \$1,597,539 which is a decrease of \$6,708,446, due to construction projects.

The City maintains enterprise funds to account for the business-type activities of the City. The information is found in the government-wide financial statements, but in more detail.

The unrestricted net position of the combined enterprise funds at the end of the year amounted to \$5,955,163. The net investment in capital assets in these same funds is \$20,907,406.

The water and sewer, storm drain, and transit funds showed a net operating profit, after non-operating revenues/expenses, contributions, and transfers are considered. The water, sewer, storm drain, and transit net position increased by \$494,115, \$245,427, \$261,309, and \$325,338, respectively.

General Fund Budgetary Highlights

During the fiscal year, the general fund's original budget was amended from an original budget revenue total of \$20,183,550 to a final revenue budget of \$20,335,610. The increase is reflected in increased charges for services, insurance recoveries and transfers.

During the fiscal year, the general fund's original budget was amended from an original budget expense total of \$17,337,216 to a final expense budget of \$18,005,932. The increase is reflected in increased general government and transfers.

Capital Assets and Debt Administration

Capital Assets – Moab City's investment in capital assets for its governmental and business-type activities as of June 30, 2025, amounts to \$74,921,023 (net of accumulated depreciation). The investment in capital assets includes land, buildings, improvements, machinery and equipment, infrastructure, and construction in progress.

The following table summarizes the capital assets of the governmental and business-type activities:

	Governmental Activities		Business-type Activities		Total	
	2025	2024	2025	2024	2025	2024
Land and water rights	\$ 2,276,884	\$ 2,276,884	\$ 262,935	\$ 262,935	\$ 2,539,819	\$ 2,539,819

Total bonds	<u>\$ 7,062,000</u>	<u>\$ 9,166,000</u>	<u>\$ 23,482,000</u>	<u>\$ 24,950,000</u>	<u>\$ 30,544,000</u>	<u>\$ 34,116,000</u>

During fiscal year 2025, the City’s total outstanding debt decreased by a net amount of \$3,572,000. The main reason for this change was the repayment of the Walnut Lease Bond of \$1,489,000. The City’s debt was also reduced by principal payments during the year in the amount of \$2,083,000.

Additional information on the City’s long-term debt can be found in the notes to this financial report.

Economic Factors and Next Year’s Budgets and Rates

No significant economic changes that would affect the City are expected for the next year. Budgets have been set on essentially the same factors as the current year being reported.

Request for Information

This financial report is designed to provide a general overview of the Moab City’s finances for all those with an interest in the City’s finances. Questions concerning any information provided in this report or requests for additional financial information should be addressed to: City Recorder, 217 East Center Street, Moab, UT 84532.

MOAB CITY
Balance Sheet Reconciliation to
Statement of Net Assets
June 30, 2025

Total fund balances - governmental fund types	<u>\$ 9,004,887</u>
Amounts reported for governmental activities in the statement of net assets are different because:	
Long term assets applicable to the City's governmental activities which are not available to pay expenses of the current period are deferred in the fund statements. However, in the statement of net position, the charges were reported as a reduction of expense or revenue when earned.	
Net Pension Assets	<u>-</u>
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	
Capital assets, at cost	54,525,843
Less accumulated depreciation	<u>(18,819,834)</u>
Net capital assets	<u>35,706,009</u>
Deferred outflows of resources - pensions, a consumption of net position that applies to future periods, is not shown in the fund fund statements	
	<u>2,015,914</u>
Long-term liabilities, including bonds payable and pension liabilities, are not due and payable in the current period and ,therefore, are not reported in the funds.	
Long term debt	(7,378,180)
Accrued interest payable	(72,397)
Compensated absences	(1,307,158)
Net pension liability	<u>(1,817,856)</u>
Net long term liabilities	<u>(10,575,591)</u>
Deferred inflows and outflows of resources related to pensions are not available financial resources and are not reported in the governmental funds.	
	<u>(39,674)</u>
Internal service funds are used by management to charge the costs of health insurance management to individual funds. The assets and liabilities of the internal service funds are included in the governmental activities in the statement of net assets.	
	<u>584,277</u>
Net assets of government activities	<u><u>\$ 36,695,822</u></u>

MOAB CITY
Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balance of Governmental Funds
to the Statement of Activities
For the Year Ended June 30, 2025

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	<u>\$ (8,664,113)</u>
<p>Governmental funds have reported capital outlays, past and present, as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.</p>	
Capital outlays	12,323,731
Depreciation expense	<u>(1,302,146)</u>
Net capital asset activity	<u>11,021,585</u>
<p>Government funds have proceeds from the sale of assets as revenue. However, the statement of activities reports the gain or loss on the sale of assets.</p>	
	-
<p>The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt uses current financial resources of governmental funds. Neither transaction, however, has any effect on net position. These amounts are the net effect of these differences in the treatment of long-term debt and related items.</p>	
Issuance of long term debt	(209,246)
Payments of principal on long term bonds	2,104,000
Payments of principal on long term leases	168,680
	<u>2,063,434</u>
<p>In the Statement of Activities, accrued interest on debt is recorded.</p>	
	<u>53,190</u>
<p>The Statement of Activities reports net pension expense and benefit expense from application of GASB 68 which is not reported in the fund statements.</p>	
	<u>(328,171)</u>
<p>The long-term portion of accrued leave does not require the use of current financial resources and, therefore, is not recorded as an expenditure in the Governmental Funds.</p>	
	<u>(286,413)</u>
<p>Internal service funds are used by management to charge the costs of health insurance to individual funds. The net revenues or (costs) of these activities are eliminated at the government wide level and are allocated to the governmental activities.</p>	
	<u>20,874</u>
Change in net assets of governmental activities	<u><u>\$ 3,880,386</u></u>

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Moab (the City) are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. The City has adopted GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance*. Accordingly, the City has elected to apply all applicable GASB pronouncements and codified accounting standards issued by GASB.

Reporting Entity

Moab City Corporation (the City) is a municipal corporation located in Grand County, Utah. The City operates under Mayor-Council form of government. The accompanying financial statements present the City and its component units, entities for which the City is financially accountable. The financial statements of the City have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to government units. The Governmental Accounting Standards Board is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

Government-wide and Fund Financial Statements

The City's basic financial statements consist of both government-wide statements and fund statements. The government-wide statements focus on the City as a whole, while the fund statements focus on individual funds.

Government-wide Financial Statements – The government-wide financial statements, consisting of the statement of net assets and the statement of changes in net assets report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Indirect expenses are not allocated. All expenses are included in the applicable function. *Program revenues* include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privilege provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Fund Financial Statements – Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, if any, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statement.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus and Basis of Accounting

The financial statements of the City are prepared in accordance with generally accepted accounting principles (GAAP). The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting, generally including the reclassification of internal activity (between or within funds). However, internal eliminations do not include utility services provided to City departments or payments to the general fund by other funds for providing administrative and billing services for such funds. Reimbursements are reported as reductions to expenses. Proprietary and any fiduciary fund financial statements are also reported using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax revenues are recognized in the year for which they are levied while grants are recognized when the grantor eligibility requirements are met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting.

Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Property taxes, sales taxes, intergovernmental revenues, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments, if any, receivable within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government. Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items.

Operating income and expense reported in proprietary fund financial statements include those revenues and expenses related to the primary, continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for sales or services. Principal operating expenses are the costs of providing goods or services, including administrative expenses and depreciation of capital assets. Their revenues and expenses are classified as non-operating in the financial statements.

Policy regarding use of restricted resources When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed. Restricted assets and liabilities payable from restricted assets current in nature are reported with current assets and current liabilities. *Restricted assets, non-current* reports assets restricted for acquisition or construction of non-current assets or are restricted for liquidation of long-term debt.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund types and major funds

Governmental funds

The City reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* accounts for financial resources used for the acquisition or construction of the capital facilities of the City (other than those of the enterprise funds).

The City reports the following as non-major governmental funds:

The *recreation fund* accounts for the revenues and expenditures for the activities in relation to recreation.

The *housing fund* accounts for the revenues and expenditures for the activities of community housing.

The *debt service fund* accounts for the payment of governmental long-term debt.

The *youth city council fund* accounts for activities with the youth city council.

The Recreation, Arts, and Parks Tax (RAP) fund. Accounts for activities related to this tax.

Proprietary funds

The City reports the following major proprietary funds:

The *water fund* is used to account for the activities of the water utility.

The *sewer fund* is used to account for the activities of the sewer utility.

The *storm drain fund* is used to account for the revenues and expenses of the storm drain utility.

The *Transit Fund* is used to account for the revenues and expenses of the transportation operations.

The *governmental internal service fund* is used to account for health insurance activities

Deposits and Investments - Investments are reported at fair value. Deposits are reported at cost, which approximates fair value. Investments of the City are accounts at the Utah Public Treasurers Investments Fund. Additional information is contained in Note 3.

Cash and Cash Equivalents - The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Receivables and payables - Accounts receivable other than intergovernmental receivables are from customers primarily for utility services. Intergovernmental receivables are considered collectible. Customer accounts are reported net of an allowance for uncollectible accounts. The allowance amount is estimated at 2% of the ending accounts receivable balance. During the course of operations, there may be transactions that occur between funds that are representative of lending/borrowing arrangements outstanding at year-end. These are reported as either *due to* or *due from other funds*.

Restricted Assets - In accordance with certain revenue bond covenants, resources may be required to be set aside for the repayment of such bonds, and, on occasion, for the repair and maintenance of the assets acquired with the bond proceeds. These resources are classified as restricted assets on the balance sheet because of their limited use. Most capital grant agreements mandate that grant proceeds be spent only on capital assets. Unspent resources of this nature are also classified

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

as restricted. The limited use resources described above involve a reported restriction of both cash and net assets.

Unspent proceeds of bonds issued to finance capital assets are also reported as restricted cash.

Prepaid Expenses - Prepaid expenses consist of certain payments to vendors that reflect costs applicable to future accounting periods and are recorded as prepaid expenses in both government-wide and fund financial statements and expensed as the items are used. The City uses the consumption method to record these items as expenditures when they are used rather than when they are purchased.

Inventories and Prepaid Items – Inventories, which mainly consist of immaterial amounts of expendable supplies for consumption, are not reported. Such supplies are acquired as needed. Proprietary fund inventories, where material, are stated at the lower of cost or market, using the first-in, first-out basis. Prepaid items record payments to vendors that benefit future reporting and are reported on the consumption basis. Both inventories and prepayments are similarly reported in government-wide and fund financial statements

Capital Assets - Capital assets includes property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), and are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. Such assets are recorded at historical cost or at estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Infrastructure is depreciated. The cost of normal maintenance and repairs that does not add to the value of an asset or materially extend the assets' life is not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Upon retirement or disposition of capital assets, the cost and related accumulated depreciation are removed from the respective accounts. Depreciation of capital assets is computed using the straight-line method over their estimated useful lives. Property, plant, and equipment of the primary government, as well as the component units if any, is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and structures	30-45
Infrastructure	30
Vehicles and equipment	5-15

Long term Obligations - In the government-wide and proprietary fund financial statements, Long term debt and obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets.

The governmental fund financial statements recognize the proceeds of debt and premiums as other financing sources of the current period. Issuance costs (if any) are reported as expenditures.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases. - During the year ended June 30, 2022, the City adopted Governmental Accounting Standards Board Statement No. 87, Leases. The new standard establishes a single model for lease accounting based on the foundational principle that leases are financings of the right-to-use an underlying asset. The statement requires a lessee to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The beginning fund balances, and net position was not affected by the implementation of GASB 68.

Lessee. The City is a lessee for a noncancelable lease of several vehicles. The City recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines (a) the discount rate it uses to discount the expected lease payments to present value, (b) lease term, and (c) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease assets and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. Lease assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the statement of net position.

Lessor - The City is a lessor for noncancelable leases of office space within City Hall. The City recognizes a lease receivable and a deferred inflow of resources in the government-wide and governmental fund financial statements.

At the commencement of the leases, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Key estimates and judgements include how the City determines (a) the discount rate it uses to discount the expected lease receipts to present value, (b) lease term, and (c) lease receipts.

- The City uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessees. The City monitors changes in the circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Deferred Outflows/Inflows of Resources – In addition to assets, the statement of net position will sometimes include a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources expense/expenditure) until then. The City reports deferred outflows of resources related to pensions as required by GASB 68.

In addition to liabilities, the statement of net position will sometimes include a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The City also reports deferred inflows of resources related to pensions as required by GASB 68.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Utah Retirement Systems Pension Plan (URS) and additions to/deductions from URS's fiduciary net position have been determined on the same basis as they are reported by URS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund balance / net assets

Government-wide Financial Statements

Equity is classified in the government-wide financial statements as net position and is displayed in three components:

Net investment in capital assets - Capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Restricted net position - Net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or 2) law through constitutional provisions or enabling legislation.

Unrestricted net position - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements

In the fund financial statements, governmental fund equity is classified as fund balance. Governmental fund balance is further classified as nonspendable, restricted, committed, assigned or unassigned. descriptions of each follow:

Nonspendable fund balance - Amounts that cannot be spent because they are either (a) not in spendable form, or (b) legally or contractually required to be maintained intact.

Restricted fund balance - Net fund resources that are subject to external constraints that have been placed on the use of the resources either a) imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of the government or b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance - Amounts that can only be used for specific purposes established by formal action of the City Council, with is the City's highest level of decision-making authority. Unused balance commitments can only be removed or changed by the same type of action (for example resolution) of the City Council. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance - Amounts that the City intends to be used for a specific purpose but are neither restricted nor committed. The City Recorder is authorized to assign amounts to a specific purpose in accordance with the City's budget policy.

Unassigned fund balance - Residual classification of the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

Proprietary fund net assets are classified the same as in the government-wide statements.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless City Council has provided otherwise in its commitment or assignment actions.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates-The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results may differ from those estimates.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary data - Annual budgets are prepared and adopted by ordinance by total for each department, in accordance with State law, by the Mayor and City Council on or before June 22 for the following fiscal year beginning July 1. Estimated revenues and appropriations may be increased or decreased by resolution of the City Council at any time during the year. A public hearing must be held prior to any proposed increase in a fund's appropriations. Budgets include activities in the General Fund. The level of the City's budgetary control (the level at which the City's expenditures cannot legally exceed appropriations) is established at the department level. Each department head is responsible for operating within the budget for their department. All annual budgets lapse at fiscal yearend.

Utah State law prohibits the appropriation of unreserved General Fund balance to an amount less than 5% of the General Fund revenues. The 5% reserve that cannot be budgeted is used to provide working capital until tax revenue is received, to meet emergency expenditures, and to cover unanticipated deficits. Any unreserved General Fund balance greater than 35% of the current year's actual revenues must be transferred to the capital projects fund with the purpose for the spending of those funds. The general fund balance was over the legal allowable limit for the year ended June 30, 2025.

Once adopted, the budget may be amended by the City Council without hearing provided the budgeted expenditures do not exceed budgeted revenues and appropriated fund balance. A public hearing must be held if the budgeted expenditures will exceed budgeted revenues and any fund balance which is available for budgeting. With the consent of the Mayor, department heads may reallocate unexpended appropriated balances from one expenditure account to another within that department during the budget year. Budgets for the General Fund are prepared on the modified accrual basis of accounting. Encumbrances are not used.

Deficit fund balance or net position - None of the City's funds have deficit fund balances or net position.

NOTE 3 DEPOSITS AND INVESTMENTS

Cash and investments as of June 30, 2025 consist of the following:

Cash on hand and on deposit:

Cash on hand	\$ 3,863
Demand deposits - checking	1,056,754
Deposits - PTIF	33,099,578
Total cash and investments	<u>\$ 34,160,195</u>

**MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 3 DEPOSITS AND INVESTMENTS (Continued)

Cash and investments listed above are classified in the accompanying government-wide statement of net position as follows:

Cash on hand and on deposit:

Cash on hand	\$ 14,963
Demand deposits - checking	1,544,511
Deposits - PTIF	20,971,633
Total cash and investments	\$ 22,531,107

Cash equivalents and investments are carried at fair value in accordance with GASB Statement No. 72.

The Utah Money Management Act (UMMA) establishes specific requirements regarding deposits of public funds by public treasurers. UMMA requires that city funds be deposited with a qualified depository which includes any depository institution which has been certified by the Utah State Commissioner of Financial Institutions as having met the requirements specified in UMMA Section 51, Chapter 7. UMMA provides the formula for determining the amount of public funds which a qualified depository may hold in order to minimize risk of loss and also defines capital requirements which an Institution must maintain to be eligible to accept public funds. UMMA lists the criteria for investments and specifies the assets which are eligible to be invested in, and for some investments, the amount of time to maturity.

UMMA enables the State Treasurer to operate the Public Treasurer's Investment Pool (PTIF). PTIF is managed by the Utah State Treasurer's investment staff and comes under the regulatory authority of the Utah Money Management Council. This council is comprised of a select group of financial professionals from units of local and state government and financial institutions doing business in the state. PTIF operations and portfolio composition is monitored at least semi-annually by the Utah Money Management Council. PTIF is unrated by any nationally recognized statistical rating organizations. Deposits in PTIF are not insured or otherwise guaranteed by the State of Utah. Participants share proportionally in any realized gains or losses on investments which are recorded on an amortized cost basis. The balance available for withdrawal is based on the accounting records maintained by PTIF. The fair value of the investment pool is approximately equal to the value of the pool shares. The City maintains monies not immediately needed for expenditure in PTIF accounts.

Deposit and Investment Risk – The City maintains no investment policy containing any specific provisions intended to limit the City's exposure to interest rate risk, credit risk, and concentration of credit risk other than that imposed by UMMA. The City's compliance with the provisions of UMMA addresses each of these risks.

Fair Value of Investments - The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows: Level 1--Quoted prices for identical investments in active markets; Level 2-- Observable inputs other than quoted market prices; and Level 3--Unobservable inputs. At June 30, 2025 the City had \$20,971,633 invested in PTIF, which uses a Level 2 fair value measurement.

**MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025**

NOTE 3 DEPOSITS AND INVESTMENTS (Continued)

Interest rate risk - Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. All deposits and investments of the City are available immediately.

Credit risk - Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligations. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits. At June 30, 2025, the City's bank balance of demand and bank trust deposits total \$1,857,470 and the book balance is \$1,544,512. Of these deposits, \$250,000 is covered by FDIC insurance; \$1,607,470 is uninsured and uncollateralized.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. This risk is addressed through the policy of investing excess monies only in PTIF.

Concentration of credit risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. PTIF falls under the constraints of UMMA in limiting concentrations of investments.

NOTE 4 RECEIVABLES

The allowance policy is described in Note 1. Receivables as of year-end for the City's funds are shown below:

	General Fund	Other Governmental Funds	Water and Sewer Funds	Storm Drain Fund	Transit Fund	Total
Customers	\$ 349,735	\$ 565,180	\$ 595,267	\$ 53,517	\$ 386,339	\$ 1,950,038

Lease Receivable - The City leases office space in City hall to third parties under lease terms ranging from 7 to 8 years. The City will receive annual payments ranging from \$4,976 to \$24,204. For the year ended June 30, 2025, the City recognized lease revenue of \$24,206 and interest revenue of \$4,679. At June 30, 2025, the City reports a lease receivable and an equal deferred inflow of resources related to leases of \$139,088.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 6 LONG-TERM DEBT (Continued)

The City has outstanding bonds and other direct borrowings related to governmental activities totaling \$7,062,000 and related to business-type activities totaling \$23,482,000. The outstanding bonds and other direct borrowings are all secured with their respective revenues and/or property and equipment as collateral.

Obligations under lease – The City has entered into agreements to lease several vehicles within the City. As of June 30, 2025 the value of the lease liability is \$316,181. The City is required to make monthly principal and interest payments ranging from \$364 to \$1,072. The leases have an interest rate ranging from 2.5%- 3.27% The right to use asset as of June 30, 2025 was \$595,808 and had accumulated depreciation of \$96,640. The right to use assets will be amortized over their useful lives.

Lease debt service requirements to maturity for governmental activities are as follows:

Storm Drain	-	53,157
Transit	270,000	-
Total Transfers	<u>\$ 7,422,638</u>	<u>\$ 7,422,638</u>

Transfers are used to move unrestricted general fund revenues to finance various programs that the government must account for in other funds in accordance with budgetary authorizations, including amounts provided as subsidies or matching funds for various grant programs.

At the end of 2025, there is a due to and due from between the Storm Drain and Water fund in the amount of \$221,995. This was created to cover debt service requirements.

NOTE 8 OTHER INFORMATION

Risk Management - The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The City participates in the Utah Local Government Trust, a public agency insurance mutual, which provides coverage for property damage and general liability. The City is subject to a minimal deductible for claims. There have been no significant reductions in insurance coverage from coverage in the prior year. Amounts of settlements have not exceeded insurance coverage in any of the past three fiscal years.

The City provides health insurance through an agreement with PEHP, using a self-funded plan with an individual stop loss limit of \$25,000 per employee. All claims are processed and paid by PEHP. The City is required to submit monthly payments to PEHP, from which all claims are paid. At the end of each monthly period during the policy year, the City is either reimbursed for excess contributions over claims or billed for deficient contributions in regards to claims. Therefore, under the current policy there are no provisions for runout beyond each monthly reporting period, and, as such, the City has not accrued additional liability in the financial statements as presented.

Landfill agreement: - Moab City entered into an agreement with the Grand County Solid Waste Management Special Service District No. 1 and Grand County in which the City agreed to guarantee the performance of closure and post-closure care at the Klondike and Moab Landfills. Should the escrow moneys set aside by the District not cover all costs associated with the closure and post-closure of the landfill, Moab would be liable for one half of the uncovered costs. Total closure and post-closure costs are currently estimated to be no more than \$175,400 for the Klondike Landfill and for the Moab Landfill.

NOTE 8 OTHER INFORMATION (Continued)

In preparing these financial statements, the City has evaluated events and transactions for potential recognition or disclosure through the date of the audit report, which is the date the financial statements were available to be used.

NOTE 9 RETIREMENT PLANS

General Information About the Pension Plan

Plan description - Eligible plan participants are provided with pensions through the Utah Retirement Systems. The Utah Retirement Systems are comprised of the following Pension Trust funds:

Public Employees Noncontributory Retirement System (Noncontributory System) is a multiple employer, cost sharing, public employee retirement system.

The Public Safety Retirement System (Public Safety System) is a mixed agent and cost-sharing, multiple-employer public retirement system.

Tier 2 Public Employees Contributory Retirement System (Tier 2 Public Employees System) is a multiple employer cost sharing public employer retirement system;

Tier 2 Public Safety and Firefighter Contributory Retirement System (Tier 2 Public Safety and Firefighters System) is a multiple employer, cost sharing, public employee retirement system.

The Tier 2 Public Employees System became effective July 1, 2011. All eligible employees beginning on or after July 1, 2011, who have no previous service credit with any of the Utah Retirement Systems, are members of the Tier 2 Retirement System.

The Utah Retirement Systems (Systems) are established and governed by the respective sections of Title 49 of the Utah Code Annotated 1953, as amended. The Systems' defined benefit plans are amended statutorily by the State Legislature. The Utah State Retirement Office Act in Title 49 provides for the administration of the Systems under the direction of the Board, whose members are appointed by the Governor. The Systems are fiduciary funds defined as pension (and other employee benefit) trust funds. URS is a component unit of the State of Utah. Title 49 of the Utah Code grants the authority to establish and amend the benefit terms.

URS issues a publicly available financial report that can be obtained by writing Utah Retirement Systems, 560 E. 200 S., Salt Lake City, Utah 84102 or visiting the website: www.urs.org.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 9 RETIREMENT PLANS (Continued)

Benefits provided: URS provides retirement, disability, and death benefits. Retirement benefits are as follows:

System	Final average salary	Years of service required and/or age eligible for benefit	Benefit percent per year of service	COLA**
Noncontributory System	Highest 3 years	30 years any age 25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	2.0% per year all years	Up to 4%
Public Safety System	Highest 3 years	20 years any age 10 years age 60 4 years age 65	2.5% per year to to 20 years; 2.0% per year over 20 years	Up to 4%
Tier 2 Public Employees System	Highest 5 years	35 years any age 20 years age 60* 10 years age 62* 4 years age 65	1.5% per year all years	Up to 2.5%
Tier 2 Public Safety and Firefighter System	Highest 5 years	25 years any age* 20 years age 60* 10 years age 62* 4 years age 65	1.5% per year all years	Up to 2.5%

**with actuarial reductions*

***All post-retirement cost of living adjustments are non-compounding and are based on the original benefit except for Judges, which is a compounding benefit. The cost-of-living adjustments are also limited to the actual Consumer Price Index (CPI) increase for the year, although unused CPI increases not met may be carried forward to subsequent years.*

Contribution rate summary: - As a condition of participation in the Systems, employers and/or employees are required to contribute certain percentages of salary and wages as authorized by statute and specified by the URS Board. Contributions are actuarially determined as an amount that, when combined with employee contributions (where applicable) is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded actuarial accrued liability. Contribution rates as of June 30, 2025 are as follows:

Utah Retirement Systems	Employee	Employer	401(k)
Contributory System			
111 Local Government Div - Tier 2	0.7	15.19%	N/A
Noncontributory System			
15 Local Government Div. Tier 1	N/A	16.97%	N/A
Public Safety System			
Contributory			
122 tier 2 DB Hybrid Public Safety N//A	4.73	25.33%	N/A
Noncontributory			
43 Other Div A with 2.5 % COLA	N/A	33.54%	N/A
Tier 2 DC Only			
211 Local Government	N/A	5.19%	10.00%
222 Public Safety	N/A	11.33%	14.00%

***Tier 2 rates include a statutory required contribution to finance the unfunded actuarial accrued liability of the Tier 1 plans.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 9 RETIREMENT PLANS (Continued)

For fiscal year ended June 30, 2025, the employee contributions to the systems were as follows:

<u>System</u>	<u>Employer</u> <u>Contributions</u>	<u>Employee</u> <u>Contributions</u>
Noncontributory System	\$ 360,262	\$ -
Public Safety System	205,682	-
Tier 2 Public Employees System	533,371	24,572
Tier 2 Public Safety and Firefighter	256,906	47,973
Tier 2 DC Only System	33,032	-
Tier 2 DC Public Safety and Firefighter System	1,580	-
Total Contributions	<u>\$ 1,390,833</u>	<u>\$ 72,545</u>

Contributions reported are the URS Board-approved required contributions by System. Contributions in the Tier 2 Systems are used to finance the unfunded liabilities in the Tier 1 Systems.

Combined Pension Assets, Liabilities, Expense, and Deferred Outflows and Inflows of Resources Relating to Pensions

At June 30, 2025, we reported a net pension asset of \$0 and a net pension liability of \$2,019,840.

	<u>Net Pension</u> <u>Asset</u>	<u>Net Pension</u> <u>Liability</u>	<u>Proportionate</u> <u>Share</u>	<u>Proportionate Share</u> <u>December 31,</u> <u>2023</u>	<u>Change</u> <u>(Decrease)</u>
Noncontributory System	\$ -	\$ 881,436	0.2779578%	0.2647345%	0.0132233%
Public Safety System	-	714,049	0.4614800%	0.4899590%	-0.0284796%
Tier 2 Public Employees System	-	334,965	0.1123142%	0.1173184%	-0.0050042%
Tier 2 Public Safety and Firefighter	-	89,390	0.1976385%	0.2020816%	0.0044431%
	<u>\$ -</u>	<u>\$ 2,019,840</u>			

The net pension asset and liability was measured as of December 31, 2024, and the total pension liability used to calculate the net pension asset and liability was determined by an actuarial valuation as of January 1, 2024, and rolled-forward using generally accepted actuarial procedures. The proportion of the net pension asset and liability is equal to the ratio of the employer's actual contributions to the Systems during the plan year over the total of all employer contributions to the System during the plan year.

For the year ended June 30, 2025, we recognized pension expense of \$1,754,777.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 9 RETIREMENT PLANS (Continued)

At June 30, 2025, we reported deferred outflows of resources and deferred inflows of resources relating to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 799,590	\$ 7,004
Changes in assumptions	234,916	1,438
Net difference between projected and actual earnings on pension plan investments	416,287	-
Changes in proportion and differences between contributions and proportionate share of contributions	58,393	35,640
Contributions subsequent to the measurement date	7,310,718	-
	\$ 8,819,904	\$ 44,082

\$730,718 reported as deferred outflows of resources related to pensions results from contributions made by us prior to our fiscal year end, but subsequent to the measurement date of December 31, 2024.

These contributions will be recognized as a reduction of the net pension liability in the upcoming fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions, will be recognized in pension expense as follows:

Year ended December 31,	Net Deferred Outflows (Inflows) of Resources
2025	\$ 617,743
2026	732,600
2027	(127,108)
2028	10,158
2029	93,144
Thereafter	138,565
	\$ 1,465,102

Actuarial Assumptions - The total pension liability in the December 31, 2024, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50 Percent
Salary Increases	3.25-9.5 percent, average, including inflation
Investment rate of return	6.85 Percent, net of pension plan investment expense, including inflation.

Mortality rates were adopted from an actuarial experience study dated January 1, 2023. The retired mortality tables are developed using URS retiree experience and are based upon gender, occupation, and age as appropriate with projected improvement using the ultimate rates from the MP-2020 improvement assumption using a base year of 2020.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 9 RETIREMENT PLANS (Continued)

The mortality assumption for active members is the PUB-2010 Employees Mortality Table for public employees, teachers, and public safety members, respectively.

The actuarial assumptions used in the January 1, 2023, valuation were based on the results of an actuarial experience study for the five year period ending December 31, 2022.

The long-term expected rate of return on pension plan investments was determined using a building-block method, in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class and is applied consistently to each defined benefit pension plan. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Expected Return Arithmetic Basis			
Asset Class	Target Asset Allocation	Real Return Arithmetic Basis	Long Term expected portfolio real rate of return
Equity securities	35.00%	7.01%	2.45%
Debt securities	20.00%	2.54%	0.51%
Real assets	18.00%	5.45%	0.98%
Private equity	12.00%	10.05%	1.21%
Absolute return	15.00%	4.36%	0.65%
Cash and cash equivalents	0.00%	0.49%	0.00%
Totals	100%		5.17%
			Inflation
			2.50%
			Expected arithmetic nominal return
			7.67%

The 6.85% assumed investment rate of return is comprised of an inflation rate of 2.50%, and a real return of 4.35% that is net of investment expense.

Discount rate: The discount rate used to measure the total pension liability was 6.85 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate, and that contributions from all participating employers will be made at contractually required rates that are actuarially determined and certified by the URS Board. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current, active, and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments, to determine the total pension liability. The discount rate does not use the Municipal Bond Index Rate.

MOAB CITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025

NOTE 9 RETIREMENT PLANS (Continued)

Sensitivity of the proportionate share of the net pension asset and liability to changes in the discount rate: The following presents the proportionate share of the net pension liability calculated using the discount rate of 6.85 %, as well as what the proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower (5.85 %) or 1 percentage point higher (7.85 %) than the current rate:

<u>System</u>	<u>1% Decrease 5.85%</u>	<u>Discount Rate 6.85%</u>	<u>1% Increase 7.85%</u>
Noncontributory System	\$ 3,727,753	\$ 881,436	\$ (1,505,702)
Public Safety System	2,193,661	714,049	(493,291)

Tier 2 Public Safety and Firefighter	304,812	89,390	(82,843)
Total	<u>\$ 7,226,685</u>	<u>\$ 2,019,840</u>	<u>\$ (2,264,560)</u>

Defined Contribution Savings Plan The Defined Contribution Savings Plans are administered by the Utah Retirement Systems Board and are generally supplemental plans to the basic retirement benefits of the Retirement Systems, but may also be used as a primary retirement plan. These plans are voluntary tax-advantaged retirement savings programs authorized under sections 401(k), 457(b) and 408 of the Internal Revenue Code. Detailed information regarding plan provisions is available in the separately issued URS financial report.

The City of Moab participates in the following Defined Contribution Savings Plans with Utah retirement systems:

401(k) plan, 457(b) plan, Traditional IRA plan, and Roth IRA plan

Employee and employer contributions to the Utah Retirement Contribution Savings Plans for fiscal year ended June 30, were as follows:

	<u>2025</u>	<u>2024</u>	<u>2023</u>
401(k) Plan			
Employer Contributions	\$ 174,836	\$ 91,652	\$ 78,396

NOTE 10 CHANGE IN ACCOUNTING PRINCIPLE

The City implemented Government Accounting Standards Board (GASB) Statement No. 101, Compensated Absences. The objective of this statement is to better meet the financial statement needs of the users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. Upon evaluation of the new standard the beginning balance of Net Position and Compensated Absences were adjusted as follows:

	Governmental Activities	
	Net Position	Compenasted Absences
Original Balance June 30, 2024	\$ 33,586,640	\$ 362,511
Restated for GASB 101	(658,234)	658,234
Restated balance at June 30, 2024	\$ 32,928,406	\$ 1,020,745

	Business-Type Activities	
	Net Position	Compenasted Absences
Original Balance June 30, 2024	\$ 25,088,880	\$ 54,075
Restated for GASB 101	(100,510)	100,510
Restated balance at June 30, 2024	\$ 24,988,370	\$ 154,585

NOTE 11 PRIOR PERIOD ADJUSTMENT

During the year the city noted Deposits collected from a developer in the amount of \$112,970 were incorrectly reported as revenue in 2024. The amount was repaid in 2025. The financial statements were restated to reflect the correction of the error. The accounts affected by the restatement are as follows:

	Governmental Activities	
	Net Position	Developer Deposits
Original Balance June 30, 2024	\$ 33,586,640	\$ -
Restated for correction of error	(112,970)	112,970
Restated balance at June 30, 2024	\$ 33,473,670	\$ 112,970

	General Fund	
	Fund Balance	Developer Deposits
Original Balance June 30, 2024	\$ 7,153,559	\$ -
Restated for correction of error	(112,970)	112,970
Restated balance at June 30, 2024	\$ 7,040,589	\$ 112,970

* Contributions in Tier 2 include an amortization rate to help the unfunded liabilities in the Tier 1 systems. Tier 2 systems were created effective July 1, 2011.

** The amounts presented were determined for the Calendar year January 1-December 31. In accordance with GASB 68, until a full 10-year trend is compiled, information is presented for those years for which information is available.

MOAB CITY
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR YEAR ENDED JUNE 30, 2025

Budgetary Comparison Schedules

The Budgetary Comparison Schedule presented in this section of the report is for the City's General Fund.

Budgeting and Budgetary Control

The budget for the General Fund is legally required and is prepared and adopted on the modified accrual basis of accounting.

Original budgets represent the revenue estimates and spending authority authorized by the City Council prior to the beginning of the year. Final budgets represent the original budget amounts plus any amendments made to the budget during the year by the Council through formal resolution. Final budgets do not include unexpended balances from the prior year because such balances automatically lapse to unreserved fund balance at the end of each year.

Current Year Excess of Expenditures over Appropriations

For the year ended June 30, 2025, expenditures within all departments were under the appropriated budget.

Changes in Assumptions Related to Pensions

Changes include updates to the mortality improvement assumption, salary increase assumption, disability incidence assumption, assumed retirement rates, and assumed termination rates, as recommended with January 1, 2023 actuarial experience study.

OTHER REPORTS

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor and
Members of the City Council
Moab City
Moab, Utah

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Moab City (the City), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated December 19, 2025.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Moab City’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected, on a timely basis.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying Schedule of Findings as item 2025-1 to be a significant deficiency.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control which might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatements, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

GILBERT & STEWART, CPA PC
Provo, Utah
December 19, 2025

MOAB CITY
SCHEDULE OF FINDINGS
FOR THE YEAR ENDED JUNE 30, 2025

2025 -1 Cash Disbursements

Condition: While performing our auditing procedures over cash disbursements we noted that certain disbursements were originally coded to the general ledger through the system, but later the coding of the general ledger accounts were manually adjusted with no audit trail.

Criteria: Internal controls require proper authorization and approval for the recording of cash disbursements.

Cause: After the disbursements were originally coded and the transactions were authorized and approved, certain disbursements were later adjusted manually without authorization, review or approval.

Effect: The review and approval process for disbursements was not being followed, which increases the risk of error and fraud.

Recommendation: We recommend that the city put procedures in place that require a journal entry to record any change to the posted general ledger account. Those journal entries should also be reviewed and approved by someone outside of the function.

Management's Response: We concur with the auditors' recommendations and will implement internal control procedures to ensure that adjustments to coded disbursements have a proper audit trail and are reviewed and approved.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND
 REPORT ON INTERNAL CONTROL OVER COMPLIANCE
 AS REQUIRED BY THE STATE COMPLIANCE AUDIT GUIDE**

Honorable Mayor and Members of the City Council
 Moab City
 Moab, Utah

REPORT ON COMPLIANCE

We have audited Moab City's compliance with the applicable state requirements described in the *State Compliance Audit Guide*, issued by the Office of the Utah State Auditor for the year ended June 30, 2025.

State compliance requirements were tested for the year ended June 30, 2025 in the following areas:

- Budgetary Compliance
- Fund Balance
- Restricted Taxes and Related Revenues
- Fraud Risk Assessment
- Government Fees
- Cash Management
- Tax Levy Revenue Recognition

Opinion on Compliance

In our opinion, Moab City complied, in all material respects, with the state compliance requirements referred to above for the year ended June 30, 2025.

Basis for Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (Government Auditing Standards); and the *State Compliance Audit Guide* (Guide), issued by the Office of the Utah State Auditor. Our responsibilities under those standards and the *State Compliance Audit Guide* are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Moab City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of Moab City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Moab City's government programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Moab City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Moab City's compliance with the requirements of the government program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Moab City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Moab City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Guide but not for the purpose of expressing an opinion on the effectiveness of Moab City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the *State Compliance Audit Guide* and which are described in our letter to management dated December 19, 2025 as item 25-1. Our opinion on compliance is not modified with respect to these matters.

Government Auditing Standards require the auditor to perform limited procedures on Moab City's response to the noncompliance findings identified in our audit described in our letter to management dated December 19, 2025 as item 25-1. Moab City's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or to detect and correct noncompliance with a state compliance requirement on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a state compliance requirement will not be prevented or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a state compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control and compliance and the results of that testing based on the requirements of the Guide. Accordingly, this report is not suitable for any other purpose. However, pursuant to *Utah Code* Title 63G, Chapter 2, this report is a matter of public record, and as such, its distribution is not limited.
