

**CITY OF MOAB RESOLUTION NO. 02-2018, A RESOLUTION REVISING
MISCELLANEOUS CULINARY WATER USE FEES AND CLARIFYING
RATES FOR MULTIPLE RESIDENTIAL DWELLINGS THAT SHARE A
WATER METER**

The following describes the intent and purpose of this resolution:

- a. The City of Moab significantly revised its culinary water use rates in June 2017;
- b. These revisions did not address the following: Fire Line rate, Bed and Breakfast rates, the Firefighter rate, and rates assessed to City parks and cemeteries and water used from the Golf Course Well #7;
- c. Revenues from the current culinary water user fees have typically been insufficient to cover the City's ongoing operations and maintenance needs for the water system. Historically this has required that the City subsidize the culinary water system, principally from wastewater treatment revenues or other City revenues;
- d. The City anticipates higher operations and maintenance costs as demands on the system increase and infrastructure ages;
- e. The City finds that it is necessary and appropriate that culinary water user fees pay for all of the ongoing operations and maintenance needs of the system;
- f. The City wishes to simplify the rate schedule where it is reasonable to do so, which is manifested here by removing the Firefighter and Bed and Breakfast rates from the schedule entirely. Firefighters will be assessed standard residential rates and Bed and Breakfasts will be assessed standard commercial rates;
- g. The City finds that it is necessary and appropriate that culinary water user fees be structured so as to encourage conservation and the efficient use of water;
- h. The City wishes to not inadvertently charge higher rates to residential customers who share a single water meter as of the date of this resolution; therefore, where multiple residences currently share a single water meter, the City Manager has discretion to apply either the commercial or the residential rate, based on an analysis of actual use and other information, if: 1) the standard residential rate would result in an unfair or inequitable charge; and 2) the modification would be fair to the other users of the system.
- i. The City has water rate setting authority pursuant to U.C.A. § 10-8-14(2); and

Schedule A: Culinary Water Rates

	Rate
Use fee: Residential, in City:	
First 2000 gallons (base charge):	\$10.00
