You can watch the meetings live on our YouTube Channel at [youtube.com/MoabCityGovernment](https://www.youtube.com/MoabCityGovernment).

Participate in 'Think Tank' workshops to create a future vision for Moab

Make your voice heard. The next step in the Moab —Tomorrow Together Community Visioning Process is a "Think-Tank" workshop, which will be held at the Grand Center, 182 North 500 West, from 5 to 8 p.m. on Wednesday, April 6 and Thursday, April 7. Refreshments will be served.

Signing up is easy! Complete the registration form on the project website, bit.ly/MoabTomorrowTogether. **The deadline to register has been extended to Tuesday, April 5** to allow as many community members as possible to take part in this important process.

The Think-Tank will try to answer important questions like:

- What should Moab become?
- What makes Moab unique and special and how can the City use these characteristics to prepare for the future?
- How will community stakeholder preferences fit into this vision?

Throughout the summer, the visioning process will also include additional engagement workshops, another extensive survey, focus-group sessions and a "Future Summit." The result of this process, the Moab Vision and Strategic Action Plan, is expected to be presented in late October.

Sign up for updates, read more about the project, register to participate in the Think Tank, and learn about the extensive community engagement events coming up at the Moab – Tomorrow Together website, bit.ly/MoabTomorrowTogether.

Take the USU Wellbeing Project's Moab Wellbeing Survey

For the third year, the City of Moab is partnering with Utah State University's Utah Wellbeing Project to conduct a public wellbeing survey. The Wellbeing Project has partnered with many cities and towns throughout Utah. The goal of the survey is to better understand the life conditions of people in Utah cities and towns and how different aspects of wellbeing vary from person to person and place to place. Results will be shared with City leaders to help with general city planning and decisions.

Please take 10 minutes to provide your feedback. Participants must be age 18 or older.

Disponible en Español.

Please share with others in your household and the Moab community.

TELL US ABOUT LIFE IN MOAB

Your participation in this survey will inform the city's planning processes and give us a better understanding of wellbeing across Utah.

Sustainable Moab – Trees: Sustainability Champions

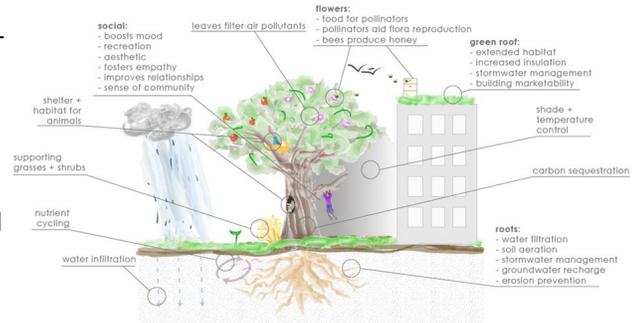

Trees are important members of our community. Trees offer reprieve from the heat, and create gathering places. Trees inspire wonder for the artist and adventure for the climber. Trees provide shelter for our non-human neighbors, while cleaning the air and water. Trees bring the ecological world to our front yards, showing us that our disconnection from the natural world is paper thin. Our verdant community members are sustainability champions, connecting economic, ecological, and social interests.

- Trees help prevent flooding and soil erosion by slowing water down, and increasing infiltration. By slowing the water down, trees help to reduce flood recovery costs, build healthy soils, reduce water pollution, and improve community safety.
- Trees are nurseries for other life. They are rest stops for migrating animals, and a play area for children. The shade falling from their canopy helps sun-sensitive plants grow, and also passively keeps the town cool and comfortable.
- Trees sequester carbon and pump out oxygen. By repurposing carbon, trees will be essential in combating climate change, and will give our community clean air, and fruit to bite into.

Trees will play an important role in creating a resilient Moab, and to show its reverence for them, the City of Moab has pledged to nurture and care for our urban forest. In honor of Moab's efforts, the Arbor Day Foundation has designated Moab a Tree City Community since 1993. To honor Arbor Day this year, and say thank you to our trees, the City is going to plant a few new trees along 500 W this 150th Arbor Day.

There is so much to learn about the services trees provide to our community. If you want to learn more visit the Moab Sustainability page at <https://moabcity.org/Sustainability> or sit under one and see for yourself!

MOAB ARTWALK

Second Saturdays, 5pm-8pm

- April 9
- May 14
- June 11
- September 10
- October 8
- November 12

ArtWalk

The first Moab ArtWalk of the 2022 season takes place April 9. This event will include the debut of the Dark Skies Show at the Moab Arts and Recreation Center (MARC) The Dark Skies event is organized in partnership with Moab Arts and the City of Moab Sustainability Department.

The art show –“Ode to the Stars” – will be on display in the foyer of the MARC, 111 East 100 North, throughout the month of April.

Arts & Ag, a Moab Market

The arts and farmers market will be returning to Moab on Thursday, May 5. Markets will be held on the first and third Thursdays of the month from 5-8 p.m. These events are organized by the staff of the MARC.

The market will run from May to October and will be held at Swanny City Park. Vendor applications are now being accepted. Applications may be submitted via this [link](#).
